

## Wizard of Oz Summer Reading Activity

Using Explain Everything (or another app), create a montage demonstrating your knowledge of an original theme you create about the novel. **We want full statements of theme, not one word.**

Along the way, you must also include references/pictures to the characters, setting and plot.

Lastly, you must also write a short paragraph (6-8 sentences in length) describing your montage. You must explain the following:

1. Why did you choose that theme? Why is it important to the novel?
2. How does it relate to the novel?
3. How did you represent it in your montage?
4. How did you represent the important characters of the novel in your montage?
5. How did you represent the setting of the novel?
6. How did you represent the plot and its key elements?

### **MONTAGE (definitions):**

- any combination of disparate elements that forms or is felt to form a unified whole, single image, etc.
- a work of art that is made up of several different kinds of things (such as strips of newspaper, pictures, or pieces of wood)
- the technique of producing a new composite whole from fragments of pictures, text, or music.
- a composite picture made by combining several separate pictures
- a mixture of different things
